Change entry graphics

All graphics and UI should match :
https://cloud.geotech3d.com/

Including interactivity / text / colours etc

Client need to see his logo and a photo from the project
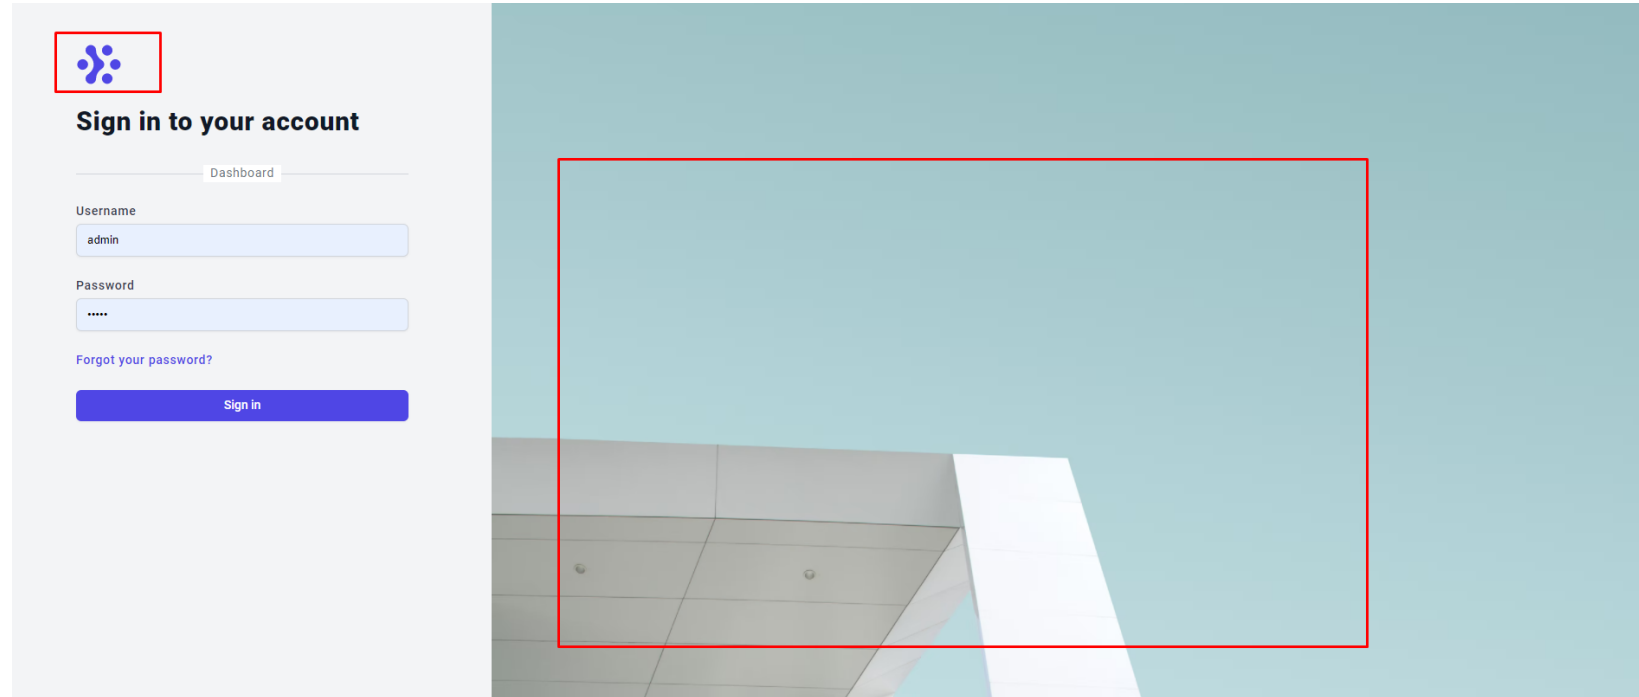

Change Favicon

1-We couldn't check the client interface , only Admin interface was available

2- the priority should be for company / project not personal

Even after adding project name / phase but its still showing like this in list
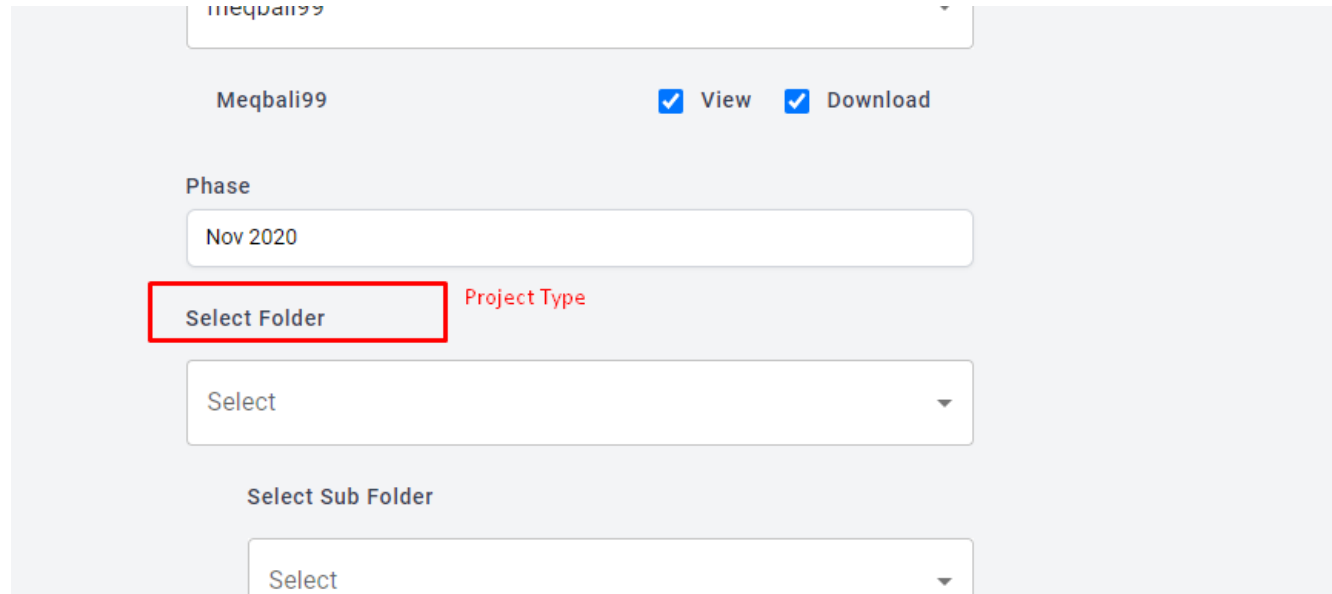

These are duplicated
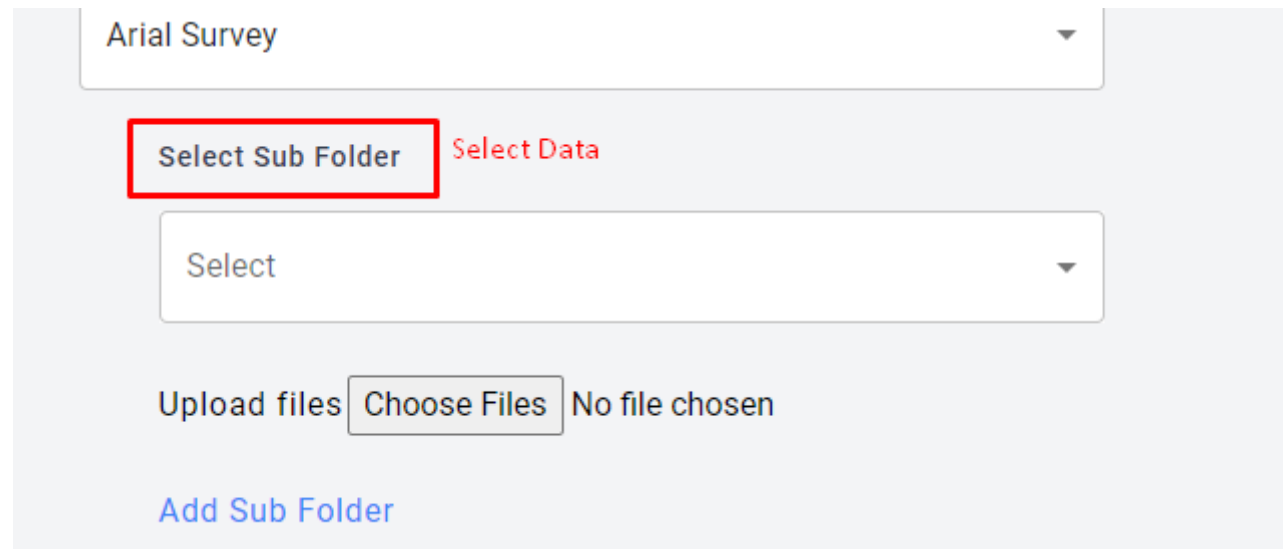

Change text as below

After choosing the project folders for uploading , no data uploaded no status bar to show upload progress

1- Missing download all bottom
2- Missing zipping before download functionality

     ⟩ 📁   DTM

     ⟩ 📁   ortho Image

     ⟩ 📁   CAD

     ⟩ 📁   DSM

     ⟩ 📁   PDF

     ⟩ 📁   PDF

     ⟩ 📁   RAW Data

Instead of Personal details , we need to concentrate on company and project details,
below we need to upload company Logo , this logo need to be shown on the client
dashboard below our logo

Also client need to see a project details and brief about it

what is this for ?

Add Point Cloud folder

There should be option to add additional folder not on list

Select Sub Folder

Select

ortho Image

DTM

DSM

CAD

3D Model

3D Mesh

PDF

RAW Data
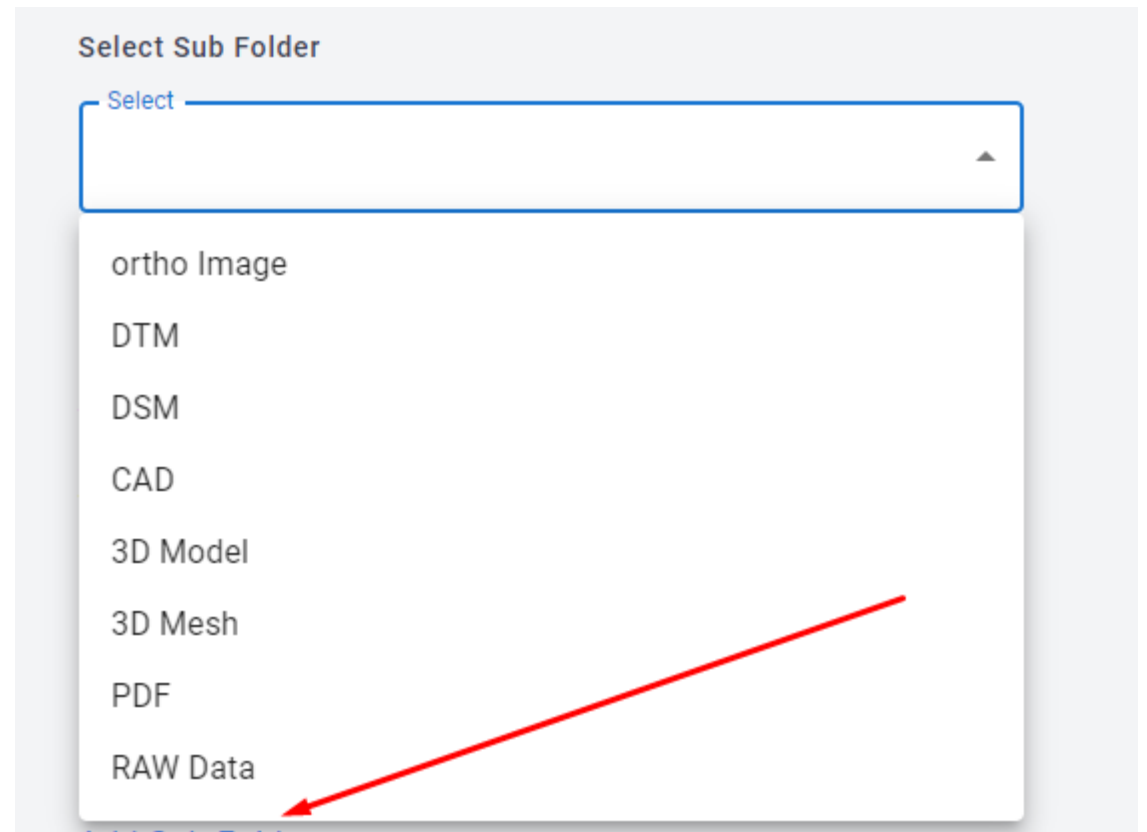

After adding a project, we chosen uploaded folders , folders names shown in projects tab but no data there and its totally missing in AWS folder structure

| Objects | Properties | Permissions | Metrics | Management | Access Points |

Objects (51)

Objects are the fundamental entities stored in Amazon S3. You can use **Amazon S3 inventory** 🔗 to get a list of all objects in your bucket. For others to access your objects, you'll need to explicitly grant them permissions. **Learn more** 🔗

| ↻ | 📋 Copy S3 URI | 📋 Copy URL | ⬇ Download | Open 🔗 | Delete | Actions ▼ | Create folder | ⬆ Upload |

Q Find objects by prefix

Orthomosaics
Georeferenced, orthorectified maps.

Point Clouds
Georeferenced, filtered and classified dense point clouds.

Elevation Models
Georeferenced digital elevation models (DSMs and DTMs).

3D Models
Textured 3D models in .OBJ format.

Measurements
Make volume and area measurements with ease, track stockpiles.

Plant Health
Easily compute NDVI, VARI, GNDVI and many other indexes.

Ground Control Points
Create and use GCPs for additional accuracy.

Contours
Preview and export elevation contours to AutoCAD, ShapeFile, GeoPackage.

Any Camera
From consumer phones to professional cameras (standard, fisheye, 360°), single or multi-

Any Format
JPGs and TIFFs (8bit and 16bit), with or without EXIFs.

Any Orientation
Process aerial and ground images, captured nadir or oblique.

Multispectral
Process multispectral images.

The projects list missing a lot of data such as client name / date of acquisition / size of project data
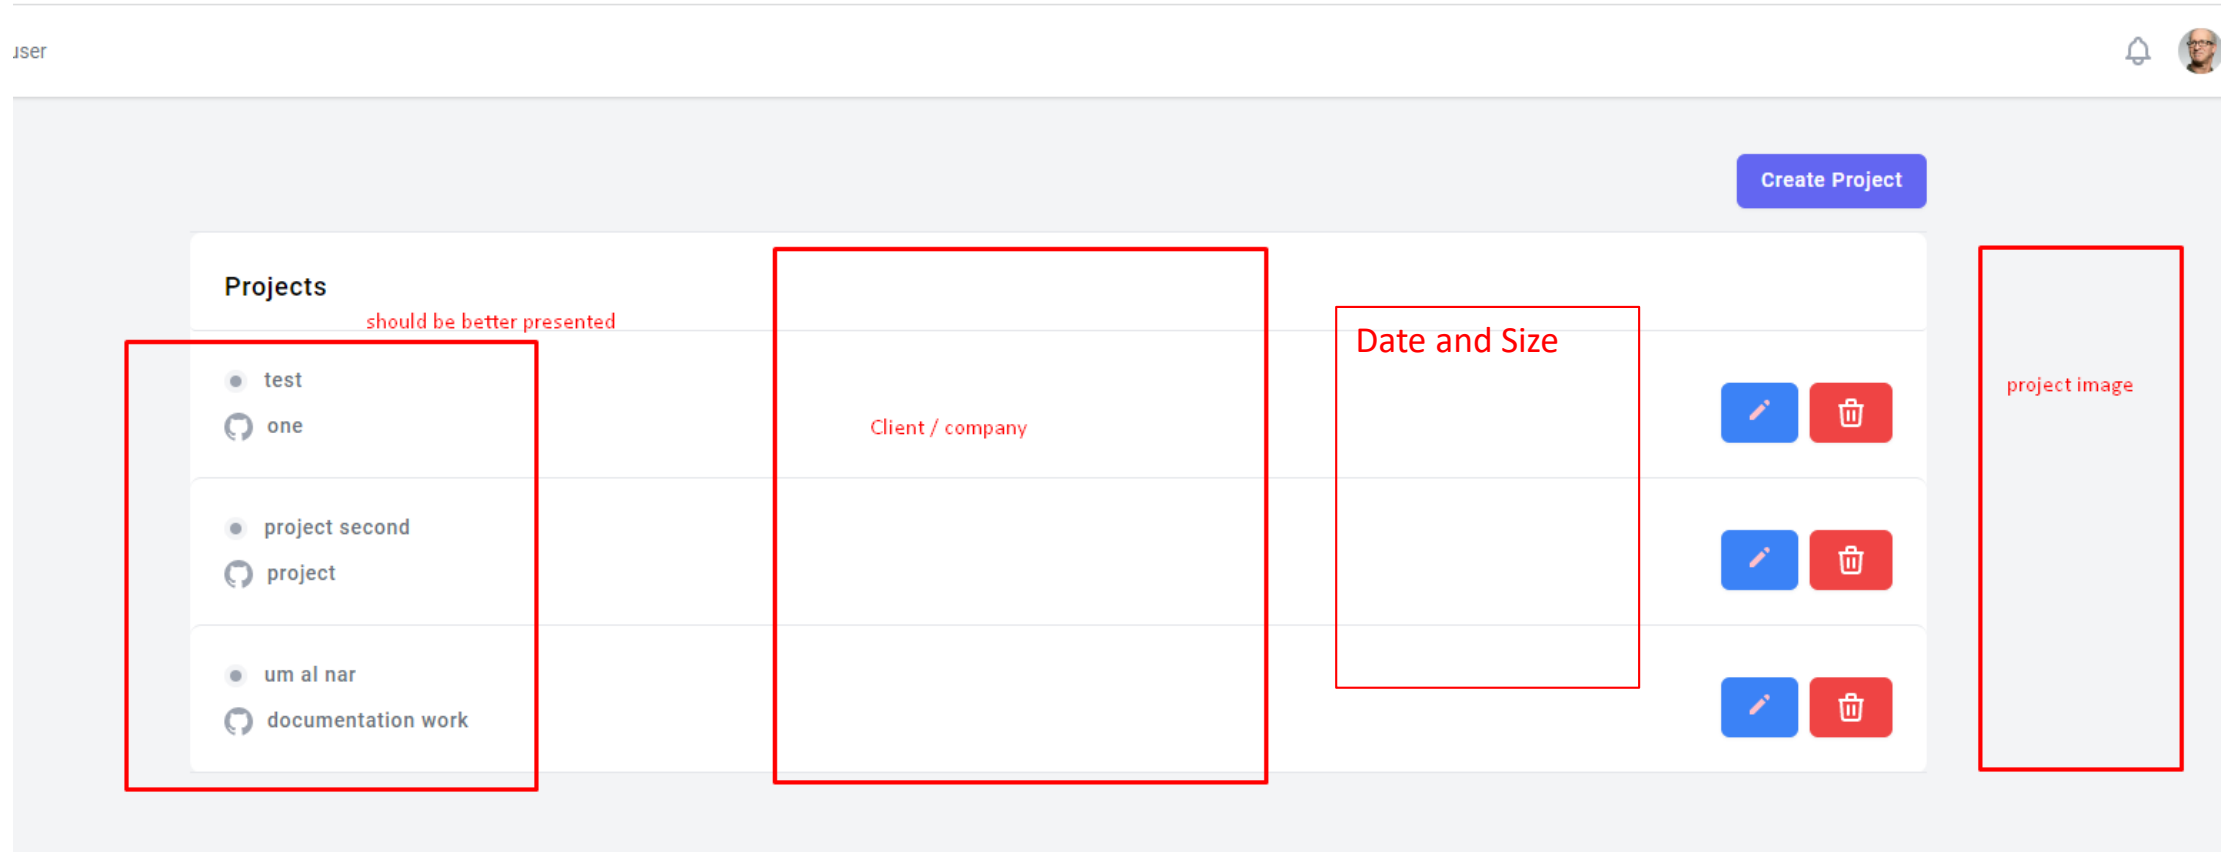

On project edit tab There is no
option to edit or update the existing
project folders or data

There should be option to allow client to
download / view data for a certain time and
then to go off link (suspend access)
